FREE VERSION – PERFECT TO GET STARTED
The Free version of MXChat includes all core AI chatbot features you need to engage visitors, answer questions and capture leads.

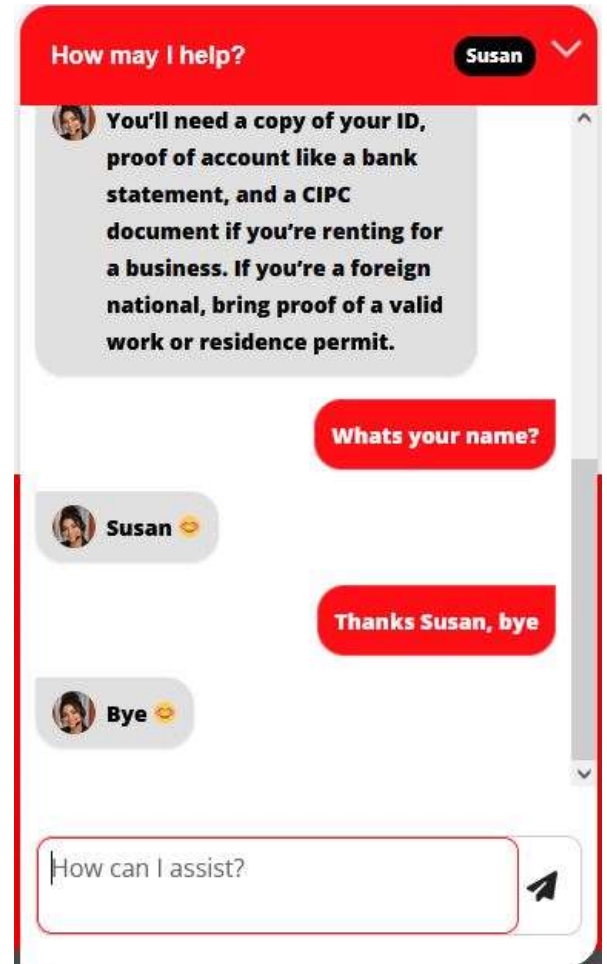

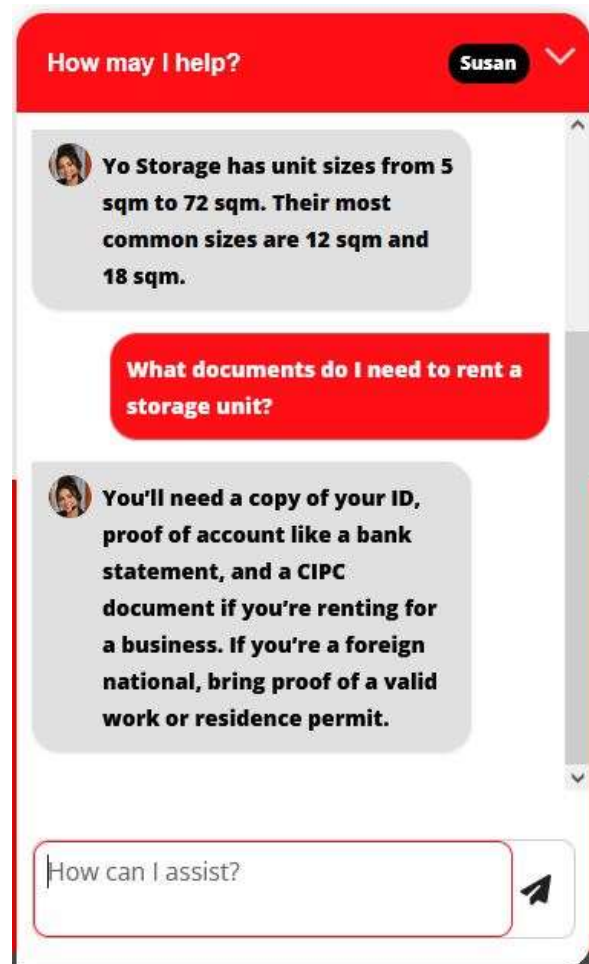

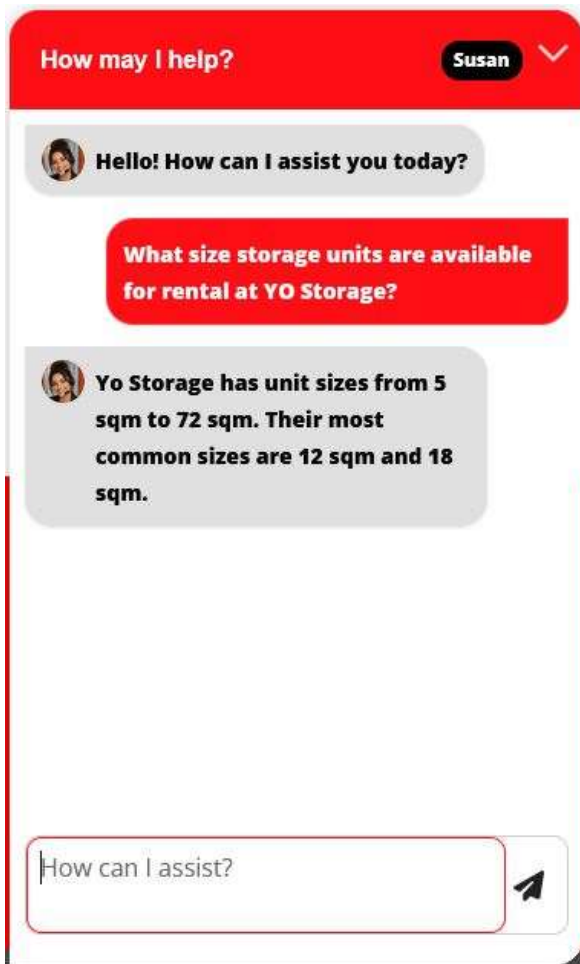

KEY ADVANTAGE
MXChat Pro is a one-time payment solution – **no monthly fees.**
You only pay for your AI token usage.

PRO VERSION – BUILT FOR BUSINESS GROWTH
Unlock advanced features, deeper integrations and powerful tools to convert more leads and deliver a premium customer experience.

Both versions require an AI provider API (such as OpenAI) and token usage costs, which are usage-based.

The demo website uses the FREE version. Hostitworld will design to your colours and AI Persona. An AI persona is a specific role, character, or set of traits assigned to an AI to guide its tone, style, and expertise for more focused, high-quality output. By defining a persona, AI shifts from general knowledge to tailored, contextual responses, acting as a "digital human" or specific expert.
